ECONOMICS COURSES - 2

ECO 310/Money, Credit, and Financial Markets
(occasionally)
1 course unit
Prerequisite: ECO 102
An examination of the behavior and functions of money, financial markets, and institutions. The role of credit, flow of funds, importance of interest rates, efficiency of financial markets, and the role of the Federal Reserve Bank are also examined.

ECO 315/Labor Economics
(fall)
1 course unit
Prerequisite: ECO 101
Provides an understanding of the economic forces acting upon labor markets. Economic reasoning and tools of Microeconomics are used to study various aspects and policies related to the labor market. Topics include an overview of the labor market, labor demand and supply, worker productivity, hours worked and working conditions, wage determination, household production, investment in human capital, worker mobility and migration, racial/ethnic and gender issues, discrimination, role of government in labor markets, and labor unions. A research paper is required.

ECO 320/Health Economics
(spring)
1 course unit
Prerequisite: ECO 101
An examination of the health care system in the U.S. with particular emphasis on understanding the economic forces acting upon health care markets. Economic reasoning and tools of microeconomics are applied to the study of health and medical care and implications for individual health behavior and public health policies are examined. Topics include overview of the U.S. health care system, demand for health and medical services, health insurance, organization of health care providers, government’s role, international health care system comparison, and pharmaceutical industry. A research paper is required.

ECO 325/Women, Gender, and Work
(fall)
1 course unit
Prerequisite: ECO 101
An examination of the economic basis of policy debated on gender inequality in the labor market and in the workplace. Perfect competition and strategic competition theories of gender inequality are studied and contrasted. Topics include the wage gap, occupational distribution, labor force participation, productivity differentials, working conditions, and international comparison. A research paper is required.

ECO 335/Economic Development
(fall)
1 course unit
Prerequisite: ECO 101
Study of economic growth models and their application to the problems of developing countries. The relation of trade to growth and foreign aid policies also are examined. A research paper is required.

ECO 340/International Economics
(spring)
1 course unit
Prerequisite: ECO 102
Study of the theory, policy, and institutions of international trading and monetary relations. A research paper is required.

ECO 345/Comparative Economic Systems
(occasionally)
1 course unit
Prerequisite: ECO 102
Economic systems including China, Japan, Russia and former USSR republics, U.S., and selected countries in Europe and Eastern Europe will be analyzed with respect to economic performance and achievement of goals. Research paper required.
ECO 350/Economics of Environmental Quality 1 course unit  
(fall)  
**Prerequisite:** ECO 101  
An examination of production and consumption from the perspectives of ecology and applied economic theory. Resource utilization, externalities, pollution-control methods and their theoretical and practical consequences for the U.S.; developed and less-developed economies will be analyzed in terms of the economic goals of efficiency, equity, and growth. A research component is required.

ECO 355/Organization of Industry 1 course unit  
(occasionally)  
**Prerequisite:** ECO 101  
A detailed study of the modern theory of the firm and antitrust issues. The theory of the firm focuses on the impact of transactions costs on economic organization. Uses price theory and the theory of the firm to analyze antitrust issues. A research paper is required.

ECO 365/Economics of the Law 1 course unit  
(fall, odd years)  
**Prerequisite:** ECO 101  
Application of economic analysis to common law rules (i.e., contract, property, and tort law). Economic analysis is used to predict the effect of legal rules, determine which legal rules are economically efficient, and explain the development of law and legal institutions. A research paper is required.

ECO 370/Selected Topics in Economics 1 course unit  
(occasionally)  
**Note:** Each time this course is offered, the specific topic and course prerequisites will be announced.  
An opportunity to pursue, in a structured setting, a topic of current interest or specialized focus not available in scheduled business courses. (Course context will vary; course may only be taken for credit twice.)

ECO 375/Strategic Interaction: Experiments and Applications of Behavioral Game Theory 1 course unit  
(occasionally)  
**Prerequisite:** STA 215  
An examination of the nature and consequences of strategic interaction using both theory and empirics. The empirical component requires analysis of experimental results. Bargaining investment, auction, market entry, government regulations, and motivating employees are analyzed using techniques and concepts from economics, psychology, and mathematics. A research paper is required.

ECO 380/International Political Economy 1 course unit  
(same as POL 380)  
(spring)  
A study of the politics of international economic relations. Economic theories of international trade and finance are presented in the context of their political origins and implications. Includes review of primary analytical perspectives, historical developments, and major contemporary institutions and processes bearing on the politics of international economics.

ECO 391/Independent Study in Economics variable course units  
**Prerequisites:** Permission of instructor and department chair  
An opportunity to engage in individual or small-group directed readings or study, not otherwise available in the curriculum, under the supervision of a faculty advisor. Student must have a minimum grade point average of 2.5.
**ECO 393/Independent Research in Economics**  variable course units  
*Prerequisites:* Permission of instructor and department chair  
An opportunity to engage in individual or small-group projects or studies, not otherwise available in the curriculum, under the supervision of a faculty advisor. The experience should result in a paper which is either published or formally presented. Student must have a minimum grade point average of 2.5.

**ECO 399/Internship in Economics**  variable course units  
*Prerequisites:* Sophomore, junior, or senior standing; permission of internship coordinator  
An opportunity for students to integrate theory with field experience in business under the instruction and supervision of a business person in consultation with the internship coordinator. Graded P/U only.

**ECO 420/Econometrics**  1 course unit  
*(spring)*  
*Prerequisite:* ECO 231 or STA 305  
An examination of single-equation and simultaneous-equations regression procedures used to test theoretical economic models. Includes techniques for analysis of time series, cross section and panel data as well as regression diagnostics. Computer applications are integrated. A research paper is required.

**ECO 494/Senior Thesis Preparation**  0 course unit  
*(fall)*  
*Prerequisites:* Senior standing, economics major.  
Independent research under faculty supervision. Students must identify a topic and complete a prospectus for their senior research project (ECO 495). The prospectus must include a motivation, literature review, bibliography and prospective data sources.

**ECO 495/Senior Thesis in Economics**  1 course unit  
*(spring and by arrangement)*  
*Prerequisite:* ECO 494  
Independent research under faculty supervision. Students must have a prospectus approved by their mentor (faculty advisor) prior to registration for this course. This course is the capstone course and research course for economics. The student will complete a formal research paper and present it in front of faculty members and students.

**ECO 496/Honors Senior Thesis in Economics**  1 course unit  
*(spring, and by arrangement)*  
*Prerequisites:* Senior standing, acceptance into economics honors program  
Independent research under faculty supervision. Students must have a prospectus approved by their mentor (faculty advisor) and the entire Economics Department prior to registration for this course. This course is the capstone course and research course for economics, and substitutes for ECO 495. The student will complete a formal research paper and present it in front of the faculty members and students.
